About This Game

SHOPPY MART STEAM EDITION

Shopy Mart: Steam Edition is the answer to the full grocery store cashier experience that many have dreamed about, and dozens asked for.

Shopy Mart puts you in the shoes of a grocery store cashier, where it is your job to scan items and stuff them into bags. You'll be required to hand out flyers, chat up the customers, and ask for club cards all day, every day!

Here are some of the things you'll get to do in Shopy Mart:

- Nail the interview!

-
- Deal with hundreds of unhelpful customers!
 - Bag hundreds of groceries for people you don't like!
 - Get paid minimum wage!
 - Unlock new customers!
 - Burn all 45 produce codes into your head, forever!
 - Hot moms!*
 - Talk to people all day without having a real conversation!
 - Find all of the cheat codes!

**'Hot' is a relative term and as such, can not be completely guaranteed.*

Well It's complete (at least until more DLC comes out)

While this game has plenty of naughty bit for the pervy types out there, it's actually very fun to play with a unique development system that encourages you to upgrade your equipment.

SPOILER Don't sell off all the goodies you find as you may need them for other crafting items.

Also tho it is not over apparent you can redo some of the quests mutiple time. If they are in white for me after completing them once, you can do them again if you choose.

The publisher **HappyHand** is very helpful with questions in the discussions group, so if you get very stuck drop him/her a note, but I will say that appears that others may be able to support you also.

. make your friends hate you even faster with these amazing cards. Hentai is love, hentai is life!. watching your twin engine train max load of iron

rolling down into the mill complex at dusk

camera panned low over the mill

the sound builds as the train nears

so many vehicles

so many sounds

so many epic views

detailed charts

babies everywhere

phenomenal construction system

lazy workers

crappy signals

millions and millions of dollars and rubles

. This is definitely one of the more unique CYOA games I've played.

-Most of the game is hunting down answers and solving conflicts in a variety of ways.

-lots of options

-I really felt like the avatar of the wolf god. Immersive.

-I am going to replay and try the different paths.

I do have a couple negatives.

-There's too much exposition for my taste.

-Story was confusing at times. Not sure the significance of the different tribes. Didn't realize how my powers worked until the end.

Overall:

-Really liked the idea, but the execution could have been better. I'd only recommend if you're looking for something different and it's on sale.. Alright, I will go as far as say I would recommend this.

It's a good concept that adds some nice tuned versions of the existing cars.

The let-down is that each of these vehicles is treated as an *entirely seperate vehicle that you must buy seperately.*

Hoping that in the future these modded vehicles just become mods to the base vehicles.. Turn on musical vibration, get your controller and lose an hour or three.

Very clean visuals, super responsive controls. Simple puzzle formula done well.. Bought this to support the devs.. Only plays DVDs in low resolution.

If you wanna buy this game for the single player, go ahead and do so. who am i to judge one of the best single players out there. but GTA Online is a different story.

the biggest issue with the multiplayer is the grind. as some ppl say "you'll need a second life for this game". almost everything is locked behind gta\$ that can be bought with real money.so you can spend your money or you can grind for countless hours just for the nice car that you want or starting the business that you like.

in the "almost" 200 hours that I've played as i'm writing this review i encountered 6-7 hackers that ruined the game for everyone in the lobby.

overall i didn't have a good experience with this game. maybe you will maybe you won't and you'll never know until you buy it.. This was the first ever soundtrack I ever bought, and I absolutely don't regret it.

The music is just so incredible I've listened to it with no end, and it just doesn't get boring.

Great stuff everyone needs to listen to!

Don't read the damn reviews and listen to it yourself!. Truly a masterpiece. The only bad part of this was the matching minigame. ♥♥♥♥ THAT MINIGAME. YOU WANT ME TO DO 48 TILES WITH 5 DIFFERENT IMAGES IN A SHORT AMOUNT OF TIME.

3/5 Its mediocre, but thats what you should expect from a cheap game. loved single player mode. What happened to single player moder???(

I enjoy playing by myself and i want to continue this option. can i get my money back?

I liked the first version better!!!!. A game plagued with small technical mishaps.

Crashes every 2 - 3 hours

Resolution \u2665\u2665\u2665s up from time to time and is it just me or does the game sometimes look slightly stretched?

Horrible FXAA and TAA implementation. I suggest turning of Filtering and AA, then install Reshade and activate the SMAA. Found that the fancy grass simulation and the proprietary AO thingy increase the crash rate, so I would keep them off, you save some FPS with nearly no visual downgrade too.

Also mandatory recommendation: Install Special K for some performance fixes. Read the manual CAREFULLY!
